

FINAL EXAMINATION FOR THE FELLOWSHIP - CLINICAL RADIOLOGY

Rapid Reporting Session Answer Sheet

Instructions for Completion of Answer Sheet

1. The 30 cases on which you will be examined will be numbered 01-30. The first ten, ie 01-10, appear on this side of the answer sheet and the remaining 20, ie 11-30, are overleaf.
2. For each case you are required to place a tick (✓) in **EITHER** Column B **OR** Column C to indicate if the case shows a normal or abnormal appearance. *Cases that show only anatomical variants or minor age related changes should be recorded as normal.*
3. For each case which shows an abnormal appearance enter a **SINGLE** diagnosis or abnormality in Column D. No marks will be allocated for a case where multiple diagnoses have been given in Column D.
4. You have 35 minutes to complete the rapid reporting session.

A	B	C	D	E		
Case number	Normal	Abnormal	Diagnosis or Abnormality (only required if Column C ticked)	Examiner's Use Only		
01	X			1	2	*
02		X	Scaphoid fracture			
03	X					
04	X
